

COMPANY PROFILE

BMI SYNERGY SOLUTIONS LTD

Delivering Synergy. Powering Energy Solutions.

2026

ABOUT THE COMPANY

BMI Synergy Solutions Ltd is an indigenous oil and gas servicing company established to provide reliable, efficient, and value-driven support services to the upstream oil and gas sector. The company was founded with a clear vision to bridge operational gaps in the industry by delivering high-quality technical services, equipment solutions, and strategic supply support that enable exploration and production companies operate efficiently. With deep industry insight and a strong understanding of the operational demands within the energy sector, BMI Synergy Solutions Ltd provides integrated services designed to support drilling, production, and field operations. The company leverages professional expertise, strategic partnerships, and access to reputable global suppliers to deliver solutions that meet international industry standards. BMI Synergy Solutions Ltd operates with a strong commitment to safety, professionalism, operational excellence, and environmental responsibility. Our goal is to build long-term partnerships with operators, service companies, and stakeholders within the oil and gas value chain by consistently delivering dependable services and measurable value. Through innovation, efficiency, and responsiveness to client needs, BMI Synergy Solutions Ltd continues to position itself as a trusted partner for organizations seeking reliable operational support in the energy industry.

The background of the entire page is a photograph of numerous large, blue, corrugated metal oil barrels stacked in rows. The barrels are arranged in a way that creates a sense of depth and repetition. The lighting is bright, and the sky in the background is a clear, pale blue with some light clouds. The barrels are the primary visual element, and their blue color is a dominant theme in the design.

Vision Statement

To become a leading indigenous oil and gas servicing company recognized for delivering innovative, reliable, and sustainable solutions that enhance operational efficiency across the upstream energy sector.

Mission Statement

Our mission is to deliver high-quality oilfield support services through the procurement and supply of premium equipment, the provision of skilled technical manpower, and the reliable supply of petroleum products and specialized chemicals.

We are committed to supporting our clients' operations with safe, efficient, and cost-effective solutions while upholding the highest standards of integrity, professionalism, and environmental responsibility.

Our Core Services

BMI Synergy Solutions Ltd provides a range of specialized services designed to support upstream oil and gas operations.

Procurement and Supply of Oilfield Equipment

We provide sourcing, procurement, and supply of high-quality oilfield equipment from reputable global manufacturers

Our procurement services ensure clients have access to reliable equipment that meets operational and industry standards.

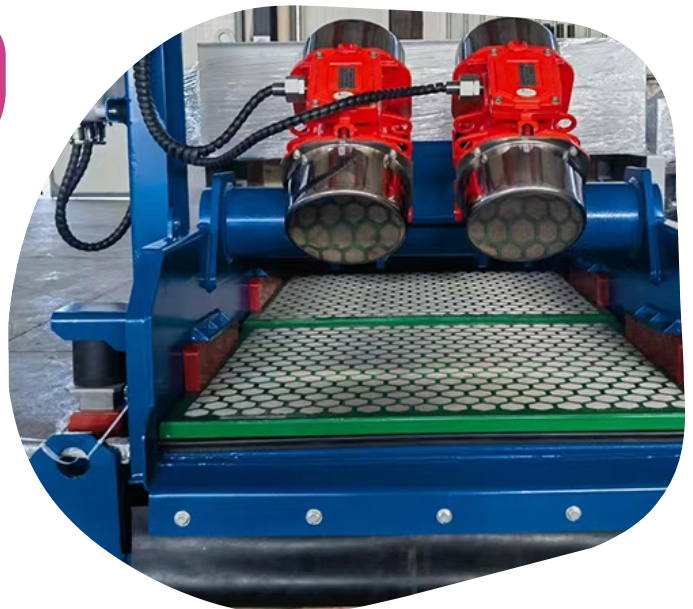

Equipment Sales and Rentals

BMI Synergy Solutions Ltd offers flexible solutions through the sales and rental of oilfield equipment required for exploration and production activities. Our rental services help clients optimize operational costs while maintaining access to reliable equipment when needed.

Procurement and Supply of Shale Shaker Screens

We provide sourcing and procurement of high-quality shale shaker screens used in drilling operations for efficient solids control. Our shale shaker screens are sourced from reputable manufacturers and are designed to deliver optimal performance, durability, and compatibility with a wide range of shale shaker systems.

Specialist Manpower Supply – Oilfield Services

We provide highly skilled and experienced technical personnel to support various oilfield operations. Our manpower solutions are designed to ensure clients have access to qualified professionals capable of delivering safe and efficient operational performance.

Supply of Petroleum Products

We supply high-quality petroleum products to support industrial and operational needs, including:

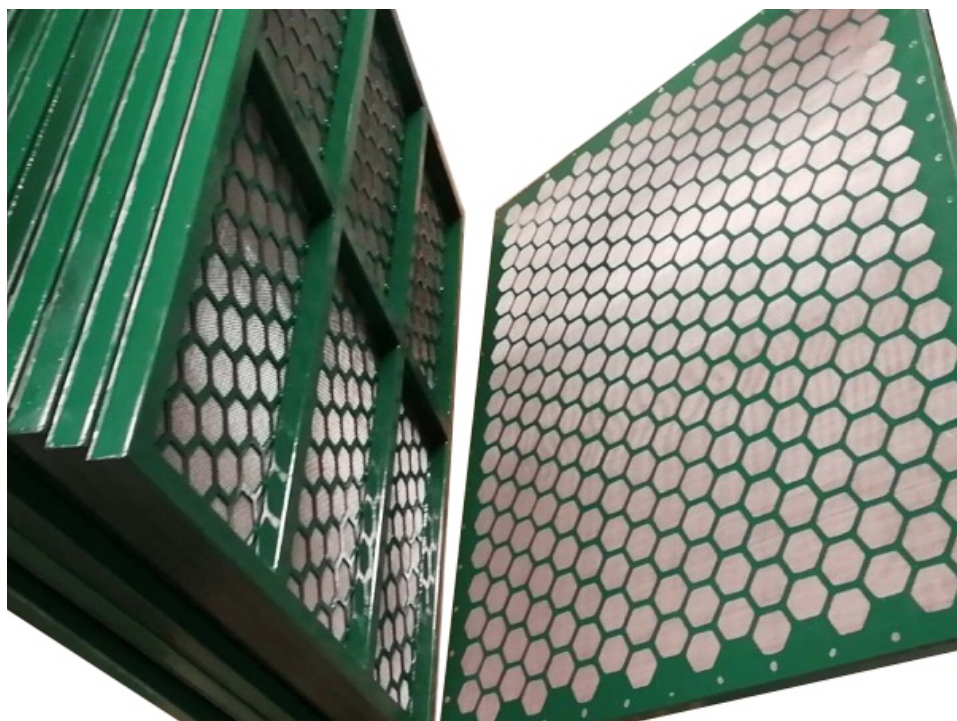

- **Automotive Gas Oil (Diesel)**
- **Premium Motor Spirit (PMS)**
- **Dual Purpose Kerosene (DPK)**
- **Base Oil**

Our supply chain ensures timely and reliable delivery to support continuous operations

Supply of Specialist Oilfield Chemicals

BMI Synergy Solutions Ltd supplies specialized chemicals used in drilling, production, and operational processes. Our products are sourced from trusted manufacturers and comply with industry quality and safety standards.
